TECHNICAL SKILLS

Software : MS Word, MS Excel.

Programming Languages : Core Java (Basics), Python(Basics)

Web Technology : HTML(Basics)

Database : SQL.

Designing Tools : Figma, Photoshop.

PROJECT

Title : PRODUCT RECOMMENDATION SYSTEM

Objective: To develop a system that can recommend products to users based on their past behavior and preferences, in order to improve the user experience and increase sales.

Description: A product recommendation system is a software application that uses machine learning to predict what products a user is likely to be interested in, based on their past behavior and preferences. This information can then be used to recommend products to users, which can help them discover new products and make more informed purchase decisions.

Software Used: Jupyter, VS Code.

WORKSHOP

- Participated in the virtual workshop "**Data Analytics and Visualization Tools",** Organized by Vishwakarma University, Maharashtra in association with TCS iON.

ACHIVEMENTS

- Certified from Walmart for **"Idea Submitting – EXPIRY ALERT SYSTEM "** in Sparkathon"
